Fiilex® V3 COLOR

Viewing Lamp

The **V3 COLOR** is an extremely versatile LED task lamp designed for professionals who require color-critical illumination. The V3 draws 90W of power to produce LED output greater than a traditional 300W bulb. It outputs full spectrum white light with CCT adjustable from 2000-1000K that is carefully calibrated at all settings, giving an average Color Rendering Index of 95. It can also output saturated colors for stylistic or filtering applications. The body is designed and constructed to prioritize ergonomics and safety. Tension adjustable ball joints, locking positions, and a foam padded snoot enable the light to safely navigate around subjects. The IPX4 water resistant rating means that it can also operate in wetter environments.

DENSE MATRIX LED

FEATURES

- 2000 - 10000K continuous CCT tuning
- Color modes that output saturated color
- 300W tungsten output (90W draw)
- High CRI values at every color temperature
- Does not emit UV light/radiation
- Dims to 0% without flicker or color shift
- Precise color calibration for consistent quality
- OLED display for monitoring settings
- Quiet and cool to the touch
- Water resistant (IP-X4)
- Ergonomically designed
